AEG

TELEFUNKEN

INTELSAT IV,
world's largest communications satellite, built by Hughes Aircraft Company, Calif.
Will handle 6000 telephone calls or 12 color TV programs.
Three satellites of that type will be placed into a synchronous orbit at an altitude of 36,000 km as part of a worldwide communications system.
Eleven countries participate in that 72-million-dollar project.
The German partner of Hughes Aircraft is AEG-TELEFUNKEN.
